

Our Community

Welcome To Our City

The City of Unalakleet was incorporated as a second-class city on October 22, 1974. Since incorporation, the City has developed and continues to develop infrastructure and utilities that advances the quality of life for our residents. The City encourages small business initiatives and serves as the base for large regional businesses as well.

Unalakleet / "Uᅇalaqliq" is a city in located at the mouth of the Unalakleet River, 148 miles southeast of Nome. There are about 800 residents living in Unalakleet all year round. Unalakleet is known in the region and around Alaska for its salmon and king crab harvests; the residents rely heavily on caribou, ptarmigan, oogrük (bearded seal), and various salmon species. Unalakleet is also known for its aesthetic value, as it resides right next to the Bering Sea,

immediately next to the large, clean Unalakleet River, and has trees, tundra, and hills behind it.

Bering Strait School District Office is located in Unalakleet. Next to their offices is Unalakleet K-High school, the home of our proud "Wolfpack" sports team. When visiting our Village, you will experience a selection of business, churches, local artists, restaurants, and unforgettable scenery. Unalakleet is a hub for going to villages in the area. Bering Air operates out of our village and will bring cargo and customers in and out on a daily basis.
