**RABIES ALERT**

RABIES was confirmed in a red fox found in Unalakleet, June 6th

HOW YOU CAN HELP

If you may have come into direct contact with this fox, please contact the clinic immediately.
Direct contact includes:
- Bitten
- Licked on an open scratch/sore or on the mouth/eyes

If your pet may have come into direct contact with this fox, please contact your local VPO or NSHC’s Office of Environmental Health.

Guidelines for everyone:
- Vaccinate all dogs & cats over 3 months against rabies.
- Keep your dogs tied up.
- If you are bitten by a dog, cat or wildlife, report this to the Clinic immediately.
- If a dog, cat, fox is acting sick or unusual contact the VPO immediately.
- Rabid carcasses should be safely burned or buried at the landfill.
- DON’T SHOOT IT IN THE HEAD! Rabies testing is done on the brain.
